

# Trimline 140 Front

REGAL AND ELEGANT AT THE SAME TIME

Are you looking for an extra little something? An extra touch of elegance, or an extra wide fireplace? The Trimline 140 Front is sure to result in extra enjoyment! Discover how luxurious your home can feel with the addition of this fireplace. Deeply heart-warming elegance.

The standard version of this frontal fireplace comes with a burner bed made of wooden logs and a double burner, which creates beautifully vibrant flames while limiting the amount of heat generated. The Trimline 140 Front also comes in a corner and panoramic version. On top of that, it comes with the Ecomax remote control and you have the options of adding Wi-Fi-control with our Trimline Fires app.

## Product specifications

### FEATURES

-  Balanced flue gas fire
-  Front model
-  Double burner
-  Wood logs fuel bed
-  Ecomax remote control
-  Antracite steel panel interior
-  Lamelas interior

### OPTIONALS

-  Pebbles fuel bed
-  Carrara fuel bed
-  Basalt fuel bed
-  Black glass interior
-  Anti reflective glass
-  Wide trims
-  Mains adapter GV60
-  Wall bracket remote control
-  Domotica smart connection
-  Wall switch
-  Set for app control
-  Puck control

## Styling & Optionals

### Ecomax remote control

For absolute ease of use all appliances are supplied with an Ecomax remote system that controls the fire at the touch of a button.

### Options interior finish materials and Trimline Wi-Fi control

For that extra WOW factor, there is also an option to upgrade to a different burnerbed. Other available upgrades also include Wi-Fi.

Appliance name		Trimline 140 Front			
Appliance type	Balanced flue built-in gas fires (C11, C31, C91)				
Purpose	Ambient heating, real flames				
Engine identification	1139 (F)				
Gas type-pressure	Natural gas G25.3 – 25 mbar	Natural gas G20 – 20 mbar	Natural gas G25 – 20 mbar	LPG G30/31 – 28-50 mbar	
Heat input (kW)	13.7	14.5	12.8	13.2	
Heat output max (kW)	11.5	12.3	10.8	11.2	
Heat output min (kW)	2.6	3.0	2.5	3.0	
Consumption (m³/h and kg/h LPG)	1.3	1.2	1.0	0.7	
Efficiency (%)	84	84	85	85	
Energy label highest efficiency	B	B	B	B	
Flue lay out wall termination	Indirect 1m vertical and max 3,5m horizontal				
Weight (kg)	155				
Efficiency class EN613	1				
NOx Class	5				
PIN ID CE	0461CP1031				
Gas connection	3/8" outside connection				
Electrical connection	6 VDC battery powered				
Gas control system	Mertik Maxitrol SYMAX B6R radio controlled 866 mHz				
Safety	Thermocouple flame supervision and pressure hatches				
Heat distribution	Internal convection system				
Connectivity	Optional App control (Android and IOS), wall switch and domotica connection				
Flue type and diameter	Holetherm-CC concentric flue 130-200mm				
Standard supplied	Adjustable legs – Convection chamber and grills – Wall brackets – Log set				
Optional	See product specifications				
Remarks	Always use non-combustible construction materials such as metal stud framing and fireboard cladding				

## Installation details

### Concentric flue system

Using the THC-CC double wall chimney system the flue gases are safely transported to the outside and fresh combustion-air is pulled inside the appliance. Balanced flue appliances can be installed using a wall terminal so no traditional chimney is needed. THC-CC is made of high quality stainless steel and approved according CE standards in combination with the Trimline appliances.

### Balanced flue gas fire

One of the most innovative aspects of the Trimline 140 Front is that there is no need for an existing chimney to be present. This is all down to the clever features of our balanced flue gas fire, that is fully room sealed. Not only does this make for a highly efficient and safe appliance, but when combined with our concentric flue system, our fires can be positioned in virtually any part of your home with a relatively simple 'chimney breast' built around it. A direct wall outlet from the back of the fire makes the installation even easier.
